DETAILED ACTION

1. Claims 1-11 and 35-44 are pending. Claims 1, 7, 8, and 35-44 have been amended in this communication filed 6/14/10 entered as Amendment After Final Rejection.
2. The IDSs filed 08/01/07, 5/06/08, 7/14/09, and 4/13/10 have been considered and entered.

4. The 35 USC 101 Rejection has been overcome by Applicants' amendments and is hereby withdrawn.

Claims 1-11 and 35-44 are allowed and renumbered 1-21.

The following is an examiner's statement of reasons for allowance: The closest prior art to Persidsky (US 6,130,666) discloses a pen computer which is capable of collecting and recording data representative of hand written strokes and displaying the data on a display screen which is part of the pen. Persidsky did not disclose capturing competition entry by determining locations in the digital description associated with the locations of the interacted tags represented in the received interaction data.

Muller et al (US 4,832,341) discloses an instant lottery using a bar code form with secure numbers. Muller et al (US 4,832,341) did not disclose capturing competition

entry by determining locations in the digital description associated with the locations of the interacted tags represented in the received interaction data.

"Paperless Signature: PenOP adds secure handwritten signatures to Microsoft Word" discloses that PenOP binds handwritten signatures to documents so they cannot be altered. "PenOP did not disclose capturing competition entry by determining locations in the digital description associated with the locations of the interacted tags represented in the received interaction data.

"A. T. Cross Company Selects Cardiff Software as Exclusive Supplier of Forms Software for CrossPad Portable Digital Notepad" discloses Cross Pen Computing Group as the supplier of integrated forms software that enables automated forms processing of paper forms using hand-held devices. "A. T. Cross Company Selects Cardiff Software as Exclusive Supplier of Forms Software for CrossPad Portable Digital Notepad" did not disclose capturing competition entry by determining locations in the digital description associated with the locations of the interacted tags represented in the received interaction data.

Other Relevant Prior Art Made of Record

Lieberman (US 5,855,369) and Rockstein et al. (US 5,886,337).

An extensive search was performed and no better prior art was found.

For these reasons claim 1 is deemed allowable over the prior art of record and claims 2-11 and 35-44 are allowed by dependency.

It appears that the instant invention is beyond the skill of one of ordinary art. Accordingly the invention would NOT have been obvious because one of ordinary skill

could not have been expected to achieve it. NOR would they have been able to predict the results, and as such, they would have not capability of expecting success.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
